Tire\$aver™

**KAESER
COMPRESSORS**

- Filtration products for all air, gas, and liquid processes
- Membrane air dryers
- PSA and membrane nitrogen generating systems
- Hydrocarbon and natural gas filtration
- Products for food & beverage, pulp and paper, mining and hospital industries

- Membrane nitrogen generators specifically designed and constructed for nitrogen tire inflation within the transportation market
- The only all weather capable, mobile nitrogen generator available

- Highly efficient and effective hydrocarbon removal technology
- Oil spill response products
- Marine and industrial wastewater treatment
- Compressed air condensate treatment

- Energy-efficient, rotary-screw stationary and mobile air compressors
- Refrigerated and desiccant air dryers
- Vacuum packages and pressure boosters
- Air receivers, flow controllers and compressor management equipment
- Air demand analysis monitoring and energy auditing services

- Tire servicing and siping equipment
- Heavy-duty recycling machinery
- Automotive industry safety and productivity tools

- Tire valves and inflation accessories
- Products for automotive, truck and heavy equipment

- Superior noise control solutions; sound barriers, sound absorbers and vibration dampers.
- Solutions for floor systems, dash and front of dash barriers and composites, engine tunnels, HVAC and interior trim panels.

anything **Parker**
Possible.™

- Broad range of filtration solutions for liquid processes.
- Products serve food & beverage, oil & gas, pulp & paper, pharmaceutical and inks/coating markets
- Filter offering includes membrane, pleated, bonded, absorbent, string wound cartridges, elements, liquid filter bags and a large assortment of standard and special design filter vessels.

ADALET WIRELESS
A SCOTT FITZGER COMPANY

- Wireless technology for Instrument Measuring, Monitoring and Control
- CSA Certified, Class 1, Div 1 and NEMA 4X enclosures
- Industrial Process and Control sensors, meters, transmitters and switches

ASHCROFT

- Process Monitoring Instrumentation
- Analog/Digital Pressure Gauges and Pressure Transducers
- Pressure, Differential Pressure and Temperature switches
- Thermometers, Thermowells, and Pneumatic Transmitters

Arnlea
Systems Ltd

- Radio Frequency Identification asset tracking systems and software

- Temperature measurement solutions
- RTD, thermocouple and thermowell systems custom designed for reactors, high-temperature, and high-sensitivity applications

Tyco Electronics
Our commitment. Your advantage.

- Tyco Energy Division (a division of Tyco Electronics)
- Low and medium voltage cable accessories for electrical utilities and industrial maintenance
- Heat shrink, Power gel, Cold-applied connectors
- Cable Terminations & Splices
- Asset Protection Products (Wildlife Protection and Bus Insulation Products)

NewCon Co.
CUTS THROUGH THE TOUGH STUFF

- Abrasive slurry knife-gate valves

- CageBall and Hyper-CageBall flow-control valves
- Gate and custom ball valves

DREXAN

- Self-regulating, electric heat-tracing cable for industrial freeze protection, process temperature maintenance and commercial snow and ice melting applications with simple, easy-to use, rugged components. CSA-Certified, Class 1, Div 1/2

- Low-voltage (12-24 VDC), self-regulating heat tracing cable and heating pads/mats suitable for freeze protection on transport vehicles, in remote solar-powered locations and commercial snow and ice melting applications

- Mineral Insulated (MI), high-temperature, metallic sheathed heating cable. CSA-Certified, Class 1, Div 1/2

- Mechanical and Electronic Thermostats and Controllers for process temperature control via Electric Heat Tracing Cable. CSA Certified, Class 1, Div 1/2

- Snow and ice melting switches, sensors and controls

- CSA Certified
